THE Impact Ranking SDG2 Report

2 Zero Hunger

SDG 2 Zero Hunger

The ability to feed the world is a key element of sustainable development. If done right, agriculture, forestry and fisheries can provide nutritious food for all. At the same time, it can ensure rural development with people at the center of the process, supporting the incomes of those who rely on agriculture.

Universities need to be able to demonstrate how they are contributing to end hunger, achieve food security and improve nutrition and promote sustainable agriculture.
